15*15mm RGB Silicon LED Neon strip

UL LISTED E509505

CE

ROHS

Product Description

This is a RGB LED Neon flex strip without Pixel control, it's can be shaped,bent to logo or sign; DIY install and cuttable as the length you want.

Cutting marks are clearly visible, Minimum cutting unit: every 31mm,

Typical length is 5m(Length per roll can be customized).

Uniform luminance, no light spots, IP65 Silicon extrusion waterproof.
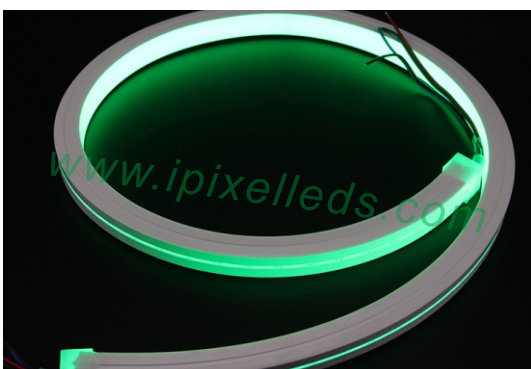

Supply voltage is DC12V ,Lead wire should be connected correctly according to colors that connecting diagram offers.

easy to use and Safe to touch and Operate.

High brightness, Impact Resistant, Anti-yellowing, good transparency

High efficiency SMD RGB LED chip ,Fire resistance, Anti - UV, Anti - Corrosion and deformation resistance

Product Datasheet

Product Number	N015120TB3PZ
CCT	RGB
Material	Silicon
Control (IC)	PWM
Luminance /M	R: 76 G: 210 B: 37
Emitting Direction	Front side
Cutting Mark	25MM
Operating Voltage	DC12V
Power (W)	14.4W/M
Dimension	5000* 15* 15MM
IP	IP65
Net Weight	1.25kg/roll (5m)
Operation Temperature	- 20 ~ 60 ℃

Application

Hotels, restaurants, nights clubs.

Back lighting, edge lighting.

Advertising signs, brightening.

Dancefloor background.
