

USB Cable

Model: **AK-USB-32**

Product code	AK-USB-32
Product type	USB Cable
Output voltage	max. 20 V
Output amperage	max. 5 A
Ultra HD (4K)	Yes
Full HD	Yes
Cable length	30 cm
The cable plug #1	USB Female connector type C
The cable plug #2	USB Male connector type C
Data transmission	Yes
Version	USB 3.2 Gen 2
Plated plugs	Yes - nickel plated
Product color	Black
Package	UniBag
Product size (L x W x H)	90 x 90 x 6 mm
Package size (L x W x H)	150 x 100 x 7 mm
Net weight	18 g
Gross weight	22 g
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5901720136398
Warranty	24 months

Description

The Akyga® **AK-USB-32 cable** is a practical accessory with many applications. It is equipped with the popular **USB Type C connector and socket** in the **USB 3.2 Gen 2 version**, also known as USB 3.1 Gen 2 or USB 3.1 SuperSpeed+. This small **30 cm extension cable** can save your life more than once when the cable of the device you are using is too short. It can be a charger with a built-in cable, a powerbank or a hard drive. Thanks to it, we can easily lead the USB-C socket out of the docking station or monitor, so that access to it is more convenient and faster. Moreover, the cable provides an extremely **fast data transmission of up to 10 Gbps** and charging with up to **100 W (20 V / 5 A)**. Among other things, this will allow you to quickly transfer data from hard drives and mobile devices to your laptop, as well as **transfer video in perfect 4K UHD quality**, without interference.

Or maybe you are worried about scratching the screen on your Nintendo Switch? With the extender, you won't have to put it in the original dock again. Don't want to keep playing despite a flat battery? That's no problem either. Simply connect your device with the extension cable to the charging station and you can continue playing.
