

## 840/1 Z Tamper-proof Hex-Plus B0 bits, 2.5 x 25 mm

Bits for Tamper-Proof Hexagon Socket Screws with safety pin

<b>EAN:</b>	4013288038555	<b>Size:</b>	25x7x7 mm
<b>Part number:</b>	05056342001	<b>Weight:</b>	4 g
<b>Article number:</b>	840/1 Z Hex-Plus B0	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82079030

- For socket head screws
- Ductile and tough for hard materials
- Hex-Plus allows socket head screws to live longer
- 1/4" hexagon drive (Wera connecting series 1)
- Suitable for Bosch, Fein, Holz-Her, Leclercx, Metabo

Tough viscous Wera bits for hexagon socket screws and universal use. Hex-Plus offers a greater contact surface in the head of the screw. The notching effect is therefore reduced to a minimum and damage to the screw head more or less eliminated. Hexagon socket B0 screws have a protruding pin in their drive profile. This prevents any unauthorised loosening since the "normal" hex tools cannot move these screws. 1/4" hexagon, suitable for holders as per DIN ISO 1173-D 6.3.

## Bits for Tamper-Proof Hexagon Socket Screws with safety pin

## With safety pin

For hexagon socket screws with safety pin.

## Hex-Plus

Hexagon socket screws are a problem, because the contact surfaces that transfer the force of the tool to the screw are very narrow. The consequence: the head of the screw can be damaged, usually rounding out the recess. Hex-Plus tools have larger contact surfaces to prevent this, driving from the flats of the recess, rather than the corners. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

## Tough-absorbing bits

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
