The **acar X4** is a modern, compact device protecting electronic equipment against spikes and surges in the power lines. The modern design allowed the combination of high aesthetic values with the possibility to provide effective surge protection for up to four appliances at the same time. The glossy surface gives the device a modern look with its original character. Compact size of the **acar X4** enables its versatile use both at home and in the office, while maintaining a high level of security. The **acar X4** is available in two colour variants, thus it's easy to adapt it to the interior of the apartment or office.
