- Kraftform Kompakt 28
- Kraftform holder with anti-roll feature, multi-component, bayonet blade and bit magazine
- Adaptor bayonet with stainless sleeve and strong permanent magnet
- Suitable for bits with 1/4" hexagon drive (Wera connecting series 1)
- Tough viscous bits for universal use

Wera compact tools with multi-component Kraftform handle for high working speeds and particularly ergonomic screwdriving. Bit magazine integrated in the handle, for storage of 6 bits. The bayonet blade can be retracted for tight screwdriving situations. It can also be removed for machine operation. The strong permanent magnet guarantees a tight fit of the bits.

Kraftform Kompakt 28

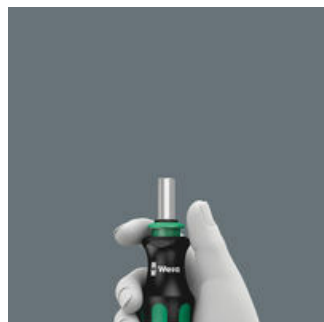

The telescopic blade I

The telescopic blade II

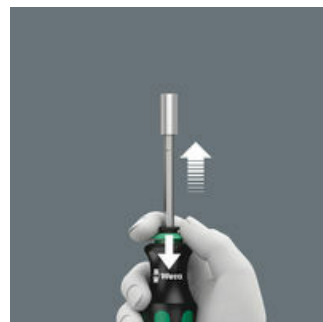

The telescopic blade III

The sets in the series Kraftform Kompakt 28 are really something. A 2 position telescopic blade can be retracted into the handle for confined space operation or extended for more reach. It can also be removed and used as a 100mm bit holder in the power tool. Six bits are conveniently integrated into a push-button opening bit magazine.

When the unique telescopic blade is lowered into the handle, fast, easy screw-driving action is possible, even in the tightest spots!

By pushing the clamping sleeve, the telescopic blade can be extended out of the handle and the compact tool becomes a full-sized screwdriver.

If the clamping sleeve is pushed again the telescopic blade can be taken out of the handle, and be used as a machine bit adaptor.
