## PKLCS1212E2400-R1

In Production RoHS REACH

Appearance & Shape

Note: This datasheet may be out of date. Please download the latest datasheet of PKLCS1212E2400-R1 from the official website of Murata Manufacturing Co., Ltd.

http://www.murata.com/en/products/productdetail?partno=PKLCS1212E2400-R1

Taking advantage of extensive acoustic and mechanical design technology and high performance ceramics, Murata has developed SMD piezoelectric sounders that suit the thin, high-density design of electronic equipment.

Features

- 1. Small, thin and lightweight
- 2. High sound pressure level and clear sound
- 3. Reflowable
- 4. Tape & Reel supply

Other Usage

Consumer/Industrial

#### Packaging Information

| Packaging |               | Standard |
|-----------|---------------|----------|
|           |               | Packing  |
|           |               | Quantity |
| -R1       | Embossed Tape | 1000     |

#### Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued

without advance notice. Please check with our sales representatives or product engineers before ordering.

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering.

# PKLCS1212E2400-R1

### Specifications

| Oscillation circuits                         | Not built-in                           |  |
|--|--|--|
| Size   | 12.0×12.0×3.0 mm                       |  |
| Frequency                                    | 2.4kHz                                 |  |
| Sound Pressure Level                         | 80dB (typ.)                            |  |
| Sound Pressure Level                         | 75dB (min.)                            |  |
| Measure Condition of Sound<br>Pressure Level | [±1.5 Vo-p,2.4kHz,square<br>wave,10cm] |  |
| Maximum input voltage                        | ±12.5Vo-p max.                         |  |
| Operating Temperature<br>Range               | -20°C to 70°C                          |  |
| Storage Temperature Range                    | -30°C to 80°C                          |  |
| Shape  | SMD                                    |  |
| Drive Type                                   | External Drive                         |  |
| Mass   | 360mg                                  |  |

The following are examples of externally driven circuits. (1) Unstable multi-vibrator using Tr.

(2) Circuits using inverters or NAND gates.

**Frequency Response** 

**Recommended Circuit**
