

ecosyn®-SEF L

BN 33855 - Hex nuts all-metal, with rotating captive washers

Manufacturer

ecosyn®-SEF

Product description

- Nut: steel, zinc-nickel coating, added lubricant
- Locking element: spring steel, zinc flake coating
- Washer: steel, zinc-nickel coating

Brand

ecosyn®-SEF

Brandtype

L

Material

Steel

Strength class

8

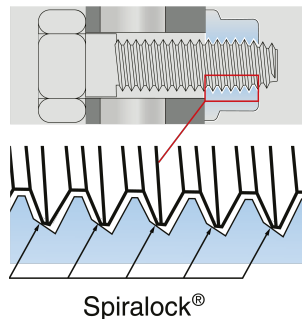

Surface

zinc nickel, zinc flake coating, added lubricant

Functional principle

Operationally safe contact screw connection ecosyn® - SEF combines a self-locking nut Spirallock® with an integrated conical spring washer and large contact surface.

Illustration functional principle

Spirallock®
