| <p>This bump cap does not provide protection against the effects of falling or thrown objects, or moving suspended loads. It should not be used instead of an industrial safety helmet as specified in EN 397. This bump cap is made to absorb the energy of a blow by partial destruction or damage to the shell and the harness, if fitted, and even though such damage may not be readily apparent, any bump cap subjected to severe impact should be replaced.</p> <p>For adequate protection this bump cap must fit or be adjusted to the size of the user’s head. The attention of users is also drawn to the danger of modifying or removing any of the original component parts of the bump cap, other than as recommended by the bump cap manufacturer. Bump caps should not be adapted for the purpose of fitting attachments in any way not recommended by the bump cap manufacturer.</p> <p>Do not apply paint, solvents, adhesives or self-adhesive labels, except in accordance with instructions from the bump cap manufacturer.</p> |  |                 |   |
| <p>This product has been certified by AITEX, Notified body:0161, in accordance with the EU type-examination of PPE Regulation (EU) 2016/425.To comply with the standards: EN 812:2012.</p>  |  |                 |   |
