

Overview product details

- Thanks to the **four different widths across flats**, the user is equipped for screw profiles 10/13/17/19 mm with only one tool.
- This tool **reduces the weight of the craftsman's equipment** and creates space in the toolbox for more equipment.
- When working with the 4 in 1 double-ring ratchet wrench, the user benefits from the double hex design and the fine toothing with 72 teeth, offering a short return angle of 5° and **highest comfort when working in confined spaces**.
- The integrated switching lever allows **effortless changeover** between right and left rotation.

Zwei Profile auf jeder Seite
Two profiles on each side

Rechts-/ Linkslauf
Right or left rotation

Perfekt für Engstellen
Improved accessibility

Verschrauben ohne Abzusetzen
Fastening without interruption
