

One-handed clamps

All-round flexible one-handed clamping and spreading

With 360° rotating handle!

The EZ360 one-handed clamp from BESSEY simply has the knack. Because in addition to the advantages of classic one-handed clamps, when overhead work is required or another tool has to be used at the same time for alignment, it offers even more.

Since the entire handle unit can be rotated around the rail, access is comfortable in any situation.

No matter whether the clamp has to be set far up or down or from the opposite side - simply turn the pump handle to the desired position and the workpiece can be fixed comfortably. The same applies, of course, to spreading work. Try it out!

One-handed clamps

All-round flexible use

The EZ360 one-handed clamp is extremely versatile:

- thanks to innovative 360° turning mechanism to perfectly adjust the handle position to the clamping task
- thanks to long protective caps to protect the workpiece surface and distribute the clamping force of up to 1,400 N
- by changing the upper part from clamping to spreading thanks to the push-button release mechanism

Robustness in a unique look

Where dynamic design meets durability:

- due to the use of high-quality materials, such as fibreglass-reinforced polyamide for the top and bottom, as well as hardened, tempered, and burnished steel for the profiled rails
- due to the plastic housing, the grip mechanism is protected from dust and chips

Extremely convenient handling

On the one hand, the handle can be positioned in such a way that an optimal pumping position and thus better application of force is achieved. On the other hand, the handle can also be swivelled out of the working area after the clamping process, thus enabling several clamps to be placed in a very confined space:

- due to the extra-long high-quality 2-component plastic handle with pump lever, which can be turned completely around the rail and securely locked in 12 positions
- due to the release lever on the sliding arm for quick adjustment of the opening and release of the clamp

NEW

One-handed clamp with rotating handle EZ360

№	←a→	←b→	←e→	←x→	⚖	📦	V3
	mm	mm	mm	mm	kg	qty.	
EZ360-15	150	80	195-315	18 x 5	0.78	6	
EZ360-30	300	80	195-465	18 x 5	0.87	6	
EZ360-45	450	80	195-61	18 x 5	0.96	6	
EZ360-60	600	80	195-765	18 x 5	1.06	6	

Available from summer 2023

- Innovative 360° rotating mechanism allows the handle unit to be placed around the rail
- 12-step latching mechanism to securely hold the selected handle position
- Large clamping surfaces with removable protective caps
- Clamping force up to 1,400 N
- Can be repositioned for spreading – without tools thanks to simple release mechanism by push-button on the top part
- One-handed operation with little effort required
- On carded hang pack
