## chisels & bolsters

Range of quality chisels manufactured from the finest materials, correctly hardened and tempered to British Standard 3066. Superior powder coated finish with ground cutting edge. Chamfered and ground striking end for added safety.

### electrician's bolster

3086

Narrow octagonal shank design to suit the needs of the electrician. T3086S (shown) with impact absorbing, protective rubber grip. Sold loose.

item number	length	blade width
T3086	225mm 8 7/8"	55mm 2 1/4"
T3086S	225mm 8 7/8"	55mm 2 1/4"

### brick bolster chisel

3087

Octagonal shank. Suitable for bricks and composite blocks. T3087S with impact absorbing, protective rubber grip. Sold loose.

item number	length	blade width
T3087 3	230mm 9"	75mm 3"
T3087 4	230mm 9"	100mm 4"
T3087S 3	230mm 9"	75mm 3"
T3087S 4	230mm 9"	100mm 4"

### plugging chisel

3088

An angled grooved cutting edge to remove mortar from between bricks. Octagonal shank. Sold loose.

item number	length	width
T3088	250mm 10"	25mm 1"

### scutch chisel

3091

High quality carbon steel Scutch chisel supplied complete with comb bit.

item number	size (mm / inch)
406001	25mm 1"
406002	38mm 1 1/2"

### spare comb / chisel bits

4211

Wallet of 10 spare combs or chisel bits.

item number	quantity	description
T4211/1	10	25mm / 1" scutch combs
T4211/2	10	25mm / 1" scutch droves
T4211/3	10	38mm / 1 1/2" scutch combs
T4211/4	10	38mm / 1 1/2" scutch droves

### cold chisel

3383

Octagonal shank, suitable for brick, concrete and small section steel. Sold loose.

item number	length	width
T3383 06	150mm 6"	12mm 1/2"
T3383 08	200mm 8"	19mm 3/4"
T3383 10	250mm 10"	19mm 3/4"
T3383 101	250mm 10"	25mm 1"
T3383 12	300mm 12"	25mm 1"
T3383 18	460mm 18"	19mm 3/4"

### brick hammer

4232

Drop forged high carbon steel head, hardened and tempered. Keen, tough cutting edge with accurately ground and bevelled face. Chrome plated tubular steel shaft with C.K comfort rubber grip. Sold loose.

item number	weight of head
T4232 16	454g 16oz
T4232 20	568g 20oz

### mortar pick - chisel and point

4234

Drop forged high carbon steel head, hardened and tempered. Chrome plated tubular steel shaft with comfort grip. Sold loose.

item number	description
T4234	chisel and point

### club hammer

4219

Drop forged high carbon steel head fully hardened and tempered. Ground and polished striking faces. Genuine hickory handle. Sold loose.

item number	weight of head
T4219 40	1135g 2 1/2lb
T4219 64	1816g 4lb

### club hammer

4219

Drop forged high carbon steel, fully hardened and tempered. Head black lacquered, ground and polished striking faces. Ash handle. Head secured by ring wedge.

item number	weight of head
T4219A 10	1000g 2 1/4lb
T4219A 15	1500g 3 1/2lb

### anti vibration forged club hammer

5703

Single piece steel shaft/head component forged from SAE 1055 fine grain carbon steel, hardened and tempered. Plastic moulded grip with TPE soft grip overmould. The handle is moulded onto the shaft for security.

item number	weight	description
357005	3lb	one piece club hammer

### fibreglass sledge hammers

4218

A heavy, long handled version of the club hammer. Used mainly for building work. Both striking faces are precision ground, hardened & heat treated to help withstand the heavy applications. The 33" fibreglass shaft has a rubber collar which also absorbs the shock/impact of the blows & reducing transmission to the user.

item number	weight of head
T421808	3.63kg 8lb
T421812	5.44kg 12lb

**slater's ripper** 5180

Spring steel for ease of use. Lacquered finish with polished tip. Sold loose.

item number	description
T5180	slater's ripper

**building trowels**

Soft grip, traditional and stainless steel ranges to suit every professional.

**gauging trowel** 529

Hardened & tempered blade welded to heavy duty tang for strength & durability. Comfortable, soft grip handle with integral finger guard. Display packed.

item number	size	description
T529207	180mm 7"	gauging trowel

**philadelphia pattern brick trowel** 529

High carbon steel blade welded to heavy duty tang for strength & durability. Comfortable, soft grip handle with integral finger guard. Display packed.

item number	size	description
T529311	280mm 11"	brick trowel

**broad heel brick trowel** 529

High carbon steel blade welded to heavy duty tang for strength & durability. Comfortable, soft grip handle with integral finger guard. Display packed.

item number	size	description
T529510	255mm 10"	broad heel brick trowel

**pointing trowel** 529

Hardened & tempered blade welded to heavy duty tang for strength & durability. Unique asymmetric shape, one curved edge & one straight for intricate, fine finishing. Comfortable, soft grip handle with integral finger guard. Display packed.

item number	size	description
T529606	150mm 6"	pointing trowel

**finger and jointing trowel** 529

Professional quality. Flexible, hardened & tempered, taper ground blade. Comfortable, soft grip handle with finger guard. Display packed.

item number	size	description
T529750	175 x 13mm 7 x 1/2"	finger and jointing trowel

**broad heel brick trowel** 5270

Forged tang welded to hardened & tempered blade. Half tanged to hardwood handle. Taper ground & lacquered blade. Steel ferrule. Display packed.

item number	size	description
T527010	255mm 10"	broad heel brick trowel
T527011	275mm 11"	broad heel brick trowel

**philadelphia pattern brick trowel** 5271

Forged tang welded to hardened & tempered blade. Half tanged to hardwood handle. Taper ground & lacquered blade. Steel ferrule. Display packed.

item number	size	description
T527111	275mm 11"	philadelphia pattern brick trowel

**pointing trowel** 5060

Welded tang. Hardened & tempered, taper ground blade. Half tanged to hardwood handle. Steel ferrule. Display packed.

item number	size	description
T5060 4	100mm 4"	pointing trowel
T5060 5	125mm 5"	pointing trowel
T5060 6	150mm 6"	pointing trowel

**gauging trowel** 5272

Welded tang. Hardened & tempered, taper ground blade. Half tanged to hardwood handle. Steel ferrule. Display packed.

item number	size	description
T527207	175mm 7"	gauging trowel

**margin trowel** 5273

High carbon steel blade welded to heavy duty tang. Traditional wooden handle. Parallel edges for borders & working in confined spaces. Display packed.

item number	size	description
T5273	125mm 5"	margin trowel

**finger trowel** 5073

Professional quality. Flexible, hardened & tempered, taper ground blade. Half tanged to hardwood handle. Steel ferrule. T5073 1 with half round blade. Display packed.

item number	blade length	blade width
T5073 37	175mm 7"	10mm 3/8"
T5073 50		13mm 1/2"
T5073 62		16mm 5/8"
T5073 75		19mm 3/4"
T5073 99		25mm 1"
T5073 1		13mm 1/2"

**philadelphia pattern brick trowel - stainless steel** 5241

Stainless steel, non-marking blade. Will not rust. Display packed.

item number	size	description
T524111	280mm 11"	philadelphia pattern brick trowel

**gauging trowel - stainless steel** 5242

Stainless steel, non-marking blade. Will not rust. Display packed.

item number	size	description
T524207	175mm 7"	gauging trowel

**pointing trowel - stainless steel** 5243

Stainless steel, non-marking blade. Will not rust. Display packed.

item number	size	description
T524306	150mm 6"	pointing trowel

**brick jointer** 5198

Fully hardened & tempered carbon steel. For finishing 13mm (1/2") & 16mm (5/8") mortar joints. Display packed.

item number	size
T5198	13 x 16mm / 1/2 x 5/8"

**trowel and square tool** 5093

Trowel blade, hardened, tempered and ground to give correct flexibility and balance. Display packed.

item number	length	blade width
T5093 50	265mm 10 1/2"	13mm 1/2"
T5093 62	265mm 10 1/2"	16mm 5/8"

**finishing trowel** 529

Professional quality, lightweight plasterers trowel with carbon steel blade. Tang securely fastened by spot welded pins. Soft grip, banana shaped handle. Display packed.

item number	size
T5298	280 x 120mm / 11 x 4 1/4"

**finishing trowel** 5068

Top quality. Extra thin (0.65mm/23 B.V.G.) flexible, polished blade. Handle mounting is securely fastened by spot welded pins. Steel is tanged through poplar wood handle to fixing nut. Display packed.

item number	size
T5068	280 x 120mm / 11 x 4 1/4"

**finishing trowel - stainless steel** 5072

Stainless steel, top quality trowel. Specification as T5068 but with thinner (0.6mm) Stainless Swedish steel blade. Display packed.

item number	size
T5072	280 x 120mm / 11 x 4 1/4"

**finishing trowel - stainless steel** 5299

Extra large stainless steel finishing trowel with traditional, banana shaped wooden handle. Display packed.

item number	size
T5299	330 x 120mm / 13 x 4 1/4"

**plasterer's hawk** 5069

Aluminium blade with grooved, non-slip surface. Detachable plastic handle. Display packed.

item number	size
T5069	300 x 300mm / 12 x 12"

**flooring trowel** 5264

Pointed, carbon steel blade flooring trowel for easy access into corners. Wooden handle with double hang tang for balance in use. Used for applying & finishing concrete or cement floors. Display packed.

item number	size
T5264	405 x 115mm / 16 x 4 1/2"

**concrete edging trowel** 5274

Edging trowel with long curved edge, suitable for rounding off concrete corners. Steel blade with wooden handle securely fastened by 6 rivets. Display packed.

item number	size
T5274	280 x 115mm / 11 x 4 1/2"

**adhesive trowel** 5169

Polished carbon steel blade with welded polypropylene handle. Broad round profile notches, ideal for applying adhesive for floor tiles. T5169 2 with small round profile notches. Sold loose.

item number	size
T5169 1	255 x 115mm / 10 1/4 x 4 1/2"
T5169 2	255 x 115mm / 10 1/4 x 4 1/2"

**skimmer float** 5172

Lightweight, moulded foam plastic with fine chequered working face. Durable and non-warping. Available in 2 sizes. Sold loose.

item number	size
T5172	280 x 140mm
T5172 18	320 x 180mm

**contact customer services on:**

**grouting float** 5174

Lightweight, durable handle bonded to dense rubber pad. Suitable for grout application. Sold loose.

item number	size
T5174	280 x 140mm / 11 x 5 1/2"

**sponge float** 5173

Lightweight, backing of moulded foam plastic with 20mm thick general purpose sponge face, suitable for washing down grout. Sold loose.

item number	size
T5173	280 x 140mm / 11 x 5 1/2"

**harling trowel** 5097

Heavy grade steel and ferruled hardwood handle. Ideal for pebble dashing and similar surface finishes. Sold loose.

item number	size
T5097	165 x 165mm / 6 1/2 x 6 1/2"

**power mixer** 1881/2

Manufactured from nickel plated steel. Suitable for use with electric drills at speeds between 200 - 700 rpm depending on the material being mixed. Ideal for mixing paint, paste, adhesive, cement, screed, filling compounds, etc. Sold loose with descriptive card.

item number	size	description	
T1881	420mm 16 1/2"	power mixer	
T1882	620mm 25"		

**plumb bob** 3492

Conical, fully polished cast iron plumb bob with screwed brass cord fitting. Sold loose.

item number	weight	description	
T3492 11	300g 11oz	plumb bob	

**chalk line** 3520

Black lacquered die cast metal case with fold away winding handle. 30m self chalking line with end support hook, 45° and 90° angle markings. Sold complete with 60g of chalk. Display packed.

item number	length	description	
T3520A	30m 100ft	chalk line	

**chalk line** 3522

30m of chalk line held in a lightweight thermoplastic case with winding handle. Supplied with 60g of chalk. Display packed.

item number	length	description	
T3522	30m 100ft	chalk line	

**chalk powder** 3521

Container with 100g/4oz of chalk powder. Choice of two colours. Sold loose.

item number	colour	description	
T3521B 100	blue	chalk powder	
T3521R 100	red		

**line pins** 3490

Forged, nickel plated line pins, suitable for use in wet and dry mortar. Sold as a pair. Display packed.

item number	size	description	
T3490	170mm 6 1/2"	line pins	

**tile scriber** 1531

Tungsten carbide tipped, suitable for tiles, metal and glass. Pocket clip. Display packed.

item number	description	
T1531	tile scriber	

**cotton chalk line** 3517

Single 18m/60ft hank. Display packed.

item number	size	description	
T3517	18m 60ft	cotton chalk line	

**braided nylon chalk line** 3519

Single 18m/60ft hank. Display packed.

item number	size	description	
T3519	18m 60ft	braided nylon chalk line	

**pipe cutter** 2231

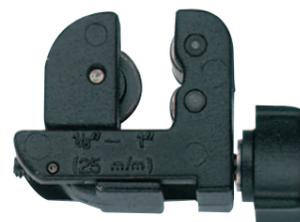

Adjustable pipe cutter with die cast, black lacquered body, hardened steel wheel and two flare groove rollers. With burr remover in end piece. Supplied with replaceable cutting wheel. For copper, brass, aluminium and thin walled steel pipes. Capacity: 3 - 30mm/1/8" - 1 1/4". Display packed.

item number	size	capacity	
T2231	145mm	3-30mm	

**mini pipe cutter** 2232

Adjustable mini pipe cutter with die cast, black lacquered body, hardened steel wheel and two flare groove rollers. Suitable for small bore pipes and those with an outside diameter up to 25mm (1"). Fitted with replaceable C.K standard cutting wheel. For copper, brass, aluminium and thin walled steel pipes. Capacity: 3 - 25mm 1/8" - 1". Display packed.

item number	size	capacity	
T2232	65mm	3-25mm	

**basin wrench** 4311

Square, telescopic pipe, length adjustable in 4 different positions between approx 275 and 460mm total length. Sliding T-handle. Toothed, spring loaded self-adjusting forged steel jaws, swivelling by 180°. Display packed.

item number	description	
T4311	basin wrench	

**double suction lifter** 5082

Lifted by one hand but with two lever operated suction pads, this tool is ideal for lifting and positioning heavier items such as refrigerators, large glass sheets and other awkward objects. For heavier items two or more Double Suction Lifters can be used together. The heavy duty body is made of shock resistant plastic and the cups are made of natural rubber.

item number	size Ø	description	
T5082	320mm 12 1/4"	double suction lifter	

**glass cutter** 5087

Professional quality glass cutter. 6 top quality wheels in turret head. Oiled felt washer for lubrication. Heavy nickel plated head. Lacquered handle. Display packed.

item number	description	
T5087	glass cutter
