

## EG310 Professional glue gun

With a high glue output up to 1000 g/h providing good performance for all applications.

**EG310** is ready to be used fast, thanks to its prismatic heating. Its reversed 4 fingers trigger – named dynamic grip – reduces fatigue during intensive use and provide good comfort.

**Applications** : PVC, Cables and tiles sealing, light furniture and wood working, trade exhibits and installation.

### Features:

- Light weight
- Compact size for operating with smaller hands
- Interchangeable nozzle according to applications
- Prismatic Heating for fast warm-up
- Dynamic grip for high comfort.

### Specifications:

- Power rating : 40(250)W
- Working voltage : 220-240V
- Glue Output : 23g/min – 1.000g/h
- Heating time at 185°C : 3 min
- Cord length : 1.90m
- Nozzle : Ø 2.0mm
- Regulation : Self-regulated
- Temperature setting : 185°C
- Dim : 195\*220\*60mm
- Weight : 0.43kg
