

Glue for Ceramics, Tiles and Porous Materials

Rapid high performance hot melt glues liquefy when heated and quickly fill gaps and stick to the materials. They cool, harden and reach high bond strength in several seconds. They also allow to move assemblies immediately - open time - to eliminate clamps and reduce drying time – set time - .

Applications:

For light-duty to medium-duty applications such as gluing a loosen tile, repairing broken baseboards,... The glue works perfectly on faience, porcelain and sealing. Perfect bond also on cement, concrete and stone. To be used with EG212, CG270 and BGX300.

Made of EVA basis.

Solvent free and non irritant.

High resin based which provides high strength.

Ceramics glue gives strong bond on the materials. Glue dries quick, helps to cover wider surfaces quickly, prevents from holding the parts too long.

Viscosity to guarantee ideal flow rate on porous materials.

Packed in short and long PET blisters of 14 pcs each :

- > Short sticks for easier switch to different speciality glues and better handling.
- > Long sticks for higher efficiency, less reloading.

Storage:

Unlimited in standard ambient conditions: 15 to 35 °C. Store away from heat. Store in dry, dust-free, and well ventilated environment. Keep in cool and dark area.

Specifications:

- Diameter : 12mm

- Stick length: 190mm / 94mm

- Colour : White

- Softening point (Ring & Ball): 80 - 96 °C

- Open time : ~ 30 seconds - Set time: ~ 30 seconds

- Application range: 170 - 190 °C according to the type of applicator and used materials
