

Glue for Textile, Leather and Fibrous Materials

Rapid high performance hot melt glues liquefy when heated and quickly fill gaps and stick to the materials. They cool, harden and reach high bond strength in several seconds. They also allow to move assemblies immediately - open time - to eliminate clamps and reduce drying time – set time - .

Applications :

For light-duty to medium-duty applications such as bonding carpets, gluing small to medium surfaces with fibrous materials on walls or stairways or repairing medium-sized leather or textile pieces... The glue works perfectly on fabrics and nubucks. To be used with EG212, CG270, BGX300.

Features :

Made of EVA basis.

Solvent free and non irritant.

High resin based which provides high strength.

Textile glue gives strong bond on the materials. Glue dries quick, helps to cover wider surfaces quickly, prevents from holding the parts too long.

Low viscosity for high flow rate which increase productivity.

Packed in short and long PET blisters of 14 pcs each:

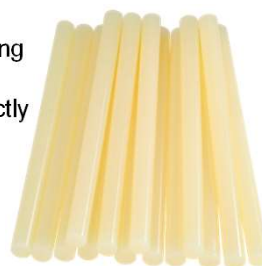

- Short sticks for easier switch to different speciality glues and better handling.
- Long sticks for higher efficiency, less reloading.

Storage :

Unlimited in standard ambient conditions: 15 to 35 °C. Store away from heat. Store in dry, dust-free, and well ventilated environment. Keep in cool and dark area.

Specifications :

- Diameter : 12mm
- Stick length : 190mm / 94mm
- Colour : Yellow
- Softening point (Ring & Ball) : 80 - 96 °C
- Open time : ~ 30 seconds
- Set time : ~ 30 seconds
- Application range : 170 - 190 ° C according to the type of applicator and used materials
