

Energy saving stapling from Rapid

Using a staple gun shouldn't be a workout. Our new ALU953 with Powercurve technology™ was developed with a leading physiotherapist for up to 65% less effort. It's not only easier to squeeze, it also perfectly matches the power of your hand.

The patented 3-step force adjuster system lets the users decide for themselves how much power to deploy. Save effort on jobs with short leg lengths and turn up the power with a simple flip of the force adjuster when required.

Save energy. Your own.

Ideal for do-it-yourself work using for example insulation materials, carpets, cardboard as well as fine wood trim around the house.

Features:

- Patented press less Powercurve technology™
- Patented 3-step force adjuster
- Ergonomic design with comfortable soft grip areas
- Strong and light aluminum exterior
- All-steel dual full strip magazine produced in Sweden for best durability

Specification:

- Dual metal magazine: No140 6-14 mm & No8 brads 15 mm
- Bottom loading, full strip magazine: 84 staples / 90 brads
- Weight: 600 g
