

BGX500 – GLUE GUN

18V Glue Gun driven by Power for All Battery. Accurate feeding mechanism, provides great precision of glue flow, thanks to its new adjustment system. Powerful Heating system for strong bond. Ready-to-use light flashes until optimal temperature is reached.

Long trigger and soft grip handle for frequent usage. BGX500 heats fast – in less than 3 minutes - Nozzles are exchangeable and BGX500 has also an On/Off main switch. The 4 LEDs on the feet show battery charge. Works with 12mm glue sticks. Delivered in new distinctive sturdy carton box FSC certified.

Features :

- Perfect for major installations that require high glue flow (up to 900gr/h)
- Special adjustment of the glue flow also makes precision works possible
- Smart light shows when the glue is ready to apply
- Quick warm-up (3 minutes)
- Flexible with exchangeable nozzles
- Practical LED shows the battery's charge status
- Up to 2.5 hours working time with 2.5Ah battery
- Battery and Charger NOT included, sold separately

Specifications :

• Battery type	Power for all 18V
• Working time	2.5Ah 150 min
	4.0Ah 270 min
	6.0Ah 430 min
• Tool Weight	385 g
• Tool Dimensions	193 x 57 x 231 mm
