

CG270 Cordless Glue Gun

The ideal tool to fix cables, thin mouldings. Its cordless function allows to fix everything inside and outside home.

CG270 is equipped with soft grip handle and trigger for a higher comfort of use. Feeding & trigger mechanism have been improved to increase level of glue output per trigger stroke. This brings higher smoothness when acting on the trigger too. Nozzles are exchangeable and you can easily decide to use longer nozzles to go in narrow spaces or use the pallet nozzle to make thinner layers of glue and make an almost invisible job. To be used with Fix & Repair glue sticks.

Features :

- Cordless glue gun ensures 7min continuous work when unplugged
- Soft grip trigger and handle for high comfort
- High glue output per trigger stroke with the new feeding mechanism
- Interchangeable nozzle
- Aluminium die-casting melting chamber

Specifications :

- Glue sticks 11-12mm
- Heating time 3 to 6 min
- Power 25 (250W)
- Working voltage 220V-240V/50Hz
- Weight 0.415 kg
- Dimensions 240 x 60 x 290mm
