

Professional Nozzles

The right nozzle for the right job.

Rapid offers a range of interchangeable that will help optimize glue flow and thickness to the type of materials you are bonding.

The standard nozzle Rep1. delivered in the standard EG360-380 packages is also available as an accessory (Art No : 40303149)

The 4WS, wide spread nozzle Rep 2. makes several thin lines. This is ideal for carton sealing, flooring and carpet fixing. (Art No 5000201)

The Long pallet nozzle Rep 3. fits perfectly for narrow spaces and depth areas. Ideal to fill up holes. The small diameter of 1.5mm is very good for precise work such as fixing cables (Art No 5000200).

You can use also the **Extra thin nozzle** (see below) which will be ideal for optic fiber cables and electronic components.

Replacement Nozzles

Each glue gun is equipped with standard nozzles fitting the best dedicated applications of each tool. They are made of aluminium available as spare parts.

EG320 Nozzle
Length 30mm
Diameter 3mm
Art.No : 5000455

EG340 Nozzle
Length 38mm
Diameter 3mm
Art.No : 5000460

EG360-380 Nozzle
Length 43mm
Diameter 3mm
Art.No : 40303149

Extra thin Nozzle
Length 38mm
Diameter 1,5mm
Art.No : 5000489
