

EG280 High performance glue gun

For all kind of uses. Powerful Heating system for strong bond. Long trigger and soft grip handle for frequent usage. Fixed stand for full stability.

EG280 replace EG250. Power has been increased to reach at least 600gr glue output per hour. It is equipped with long trigger which provides high glue output. Its soft grip handle gives high comfort and top cover in soft grip material helps to absorb heating temperature.

Feeding mechanism has been improved to bring high smoothness when acting on the trigger. EG280 heats fast – in less than 3 minutes - stand is wider and provides higher stability. Nozzles are exchangeable and it also has an On/Off main switch with LED indicator. Delivered in touch & feel blister. To be used with Installation glue sticks.

Features :

- Up to 600gr/h glue output with the improved feeding mechanism
- Soft grip handle and 4 fingers trigger for high comfort
- Interchangeable nozzle
- Wide and removable stand for better stability and versatility
- Main switch ON/OFF

Specifications :

- Glue sticks 11-12mm
- Heating time less than 3 min
- Power 35 (350W)
- Working voltage 220V-240V/50Hz
- Weight / Dimensions 0.480 kg / 230*85*300mm
