

Audio-video cord

Model: **AK-HD-200L**

Product code	AK-HD-200L
Product type	Audio-video cord
Series	HDMI
Signal frequency	4K@120Hz, 8K@60Hz
CEC function	Yes
Directivity	One-way
Cable length	20 m
The cable plug #1	Male connector HDMI
The cable plug #2	Male connector HDMI
Version	HDMI 2.1
Plated plugs	Gold
Cable material	Optical Fibre (AOC)
Product color	Black
Temperature	5 - 50 °C
Package	UniBag
Product size (L x W x H)	160 x 170 x 40 mm
Package size (L x W x H)	240 x 280 x 42 mm
Net weight	568 g
Gross weight	596 g
REACH compatibility	Yes
EAN code	5901720138064
Warranty	24 months
Bandwidth	48 Gbit/s

Description

The **Akyga® AK-HD-200L HDMI fibre optic cable** is a high-quality cable designed for use with audio/video devices. It is ideal for connecting, for example, a console, TV or projector with a DVD player or laptop. This cable is characterised by its strength and durability, which guarantees a trouble-free and stable connection. In addition, the fibre-optic cable it contains enables the transfer of high-quality video and audio over a distance of **20 metres without distortion**. As a result, you can enjoy a high-contrast image with a wide colour range in **8K resolution**.

It is also worth mentioning that the **HDMI ver. 2.1 fibre optic cable** is fully compatible with **eARC** and **Dolby Vision** technologies. As a result, users can enjoy even better audio and video quality, which are transmitted without loss of quality or distortion. eARC (enhanced Audio Return Channel) is a technology that allows studio-quality sound to be transmitted from the TV to audio devices such as soundbars or receivers. Dolby Vision, on the other hand, is an advanced HDR technology that enables even better picture quality, richer colours and greater depth. As a result, the Akyga® AK-HD-200L **HDMI AOC cable** is the ideal choice for those who value high quality audio and video and do not want to compromise on transmission quality.
