Description

Akyga® AK-AD-68 is an interchangeable **USB-C magnetic cable connector**. It is a small plug that is permanently installed in the power socket of your mobile device. With its help, you can easily connect your phone, tablet or Bluetooth speaker for charging. It can also be used if you want to add an extra plug to another device or if the old one gets lost. Thanks to it, you will reduce the connection of the charging plug to a minimum. Thus, the risk of a malfunction as a result of wear and tear on the socket will be significantly reduced and the service life of the device will be extended. The magnetic USB cable is not included and must be purchased separately.
