

Qoltec Plug-in power supply 48W | 12V | 4A | 5.5*2.5

Product code: 50005

The Qoltec Plug-in power supply is a guarantee of safe power supply and use. It is characterized by high efficiency, which reduces energy consumption. We invite you to familiarize yourself with the full range of our power adapters.

A solution dedicated to you

Reliability is crucial for you? Choose a Qoltec Plug-in power supply that will allow you to charge your devices safely. It was made of the highest quality materials, and the technologies used in it will allow for low energy consumption and high efficiency.

Multi-sector use	<p>Qoltec Plug-in power supply is designed to power a wide range of electronic equipment such as:</p> <ul style="list-style-type: none"> - monitors, routers, tablets, TV, - toys, - battery chargers for power tools, - printers, scanners, cash registers. <p>An excellent choice in places where we do not need high-power power supplies. It is characterized by its small size, quick and easy installation by connecting it directly to a power socket.</p>																																								
Safe power supply in a universal cersion	<p>Our power adapter is equipped with protections:</p> <ul style="list-style-type: none"> - overvoltage protection, - overload protection, - short-circuit protection, - overheating protection. 																																								
Confidence confirmed by a warranty	<p>You value the quality of purchased equipment so our projects and solutions are focused on meeting your expectations. Qoltec AC power adapter is covered by 24 months warranty.</p>

Producer	Qoltec																																								
Package size	134 x 50 x 230 mm																																								
Usable power	48 W																																								
Input voltage	220 - 240 V																																								
Output voltage	12 V																																								
Output current	4 A																																								
Frequency	50 - 60 Hz																																								
Safety	Overvoltage protection Overload protection Short-circuit protection Overheating protection																																								
Plug type	5.5 * 2.5 mm																																								
Cable length	1,40 m																																								
Additional information	AC / DC power supply intended for telecommunications equipment and for automatic data processing equipment and devices for these machines.																																								
Dimensions	51 x 114 x 30 mm																																								
Package contents	Plug-in power supply																																								
Package depth / length	135 mm																																								
Package width	50 mm																																								
Package height	230 mm																																								
Net weight	0,2270 kg																																								
Gross weight	0,3440 kg																																								
Warranty	24 months																																								
EAN code	5901878500058
