

Thick-film power resistor  
RTS-01

Characteristics

Description

RTS series high power resistors are made in a thick film technology on stainless steel substrate. Resistors are characterized by a high power at small size, high resistance to temporary overloads and very low inductance which make them useful at high power and high frequency applications. Mounting holes dimensions are compliant with standard thick film heat-sinkable power resistors, which allows for an easy replacement. Various types of connectors are available, in standard resistors are equipped with 5/A screw connectors. Resistors are designed for use with suitable heatsink.

Features

- Very good power/volume ratio
- Power applications up to 1000W
- Wide ohmic range
- Flat design
- Non inductive
- Easy mounting
- RoHS compliant

Technical Specifications

	RTS-01-100	RTS-01-200
Resistance range	0,1 $\Omega$ ... 1 M $\Omega$	
Resistance tolerance	$\pm 5\%$ , $\pm 10\%$	
Power rating (on heatsink)	100W	200W
Electric strength voltage	2,5 kV	
Temperature coefficient	$\pm 100$ ppm/ $^{\circ}\text{C}$ (available also $\pm 1500$ ppm/ $^{\circ}\text{C}$ )	
Max operating temperature	170 $^{\circ}\text{C}$ (available also 300 $^{\circ}\text{C}$ )	
External dimensions	38 x 25 x 2 mm	38 x 38 x 2 mm
Mounting - torque for contacts M4	1,6 Nm ... 1,8 Nm

The recommended tightening torque for **5/A** and **5/B** connections is **1.2 Nm**

### Mounting to the heat sink

The resistor should be screwed to the heat sink with M4 screws. In order to ensure effective heat transfer, we recommend using thermocouples dedicated specifically to our products. More information on [RTS-THERMOPADS](#).

### Ordering informations

Series	-	Power	-	Resistance	-	Tolerance	-	Terminal
RTS-01		100 W 200 W		0R1 ... ... 1M		5 % 10 %		1 2 3/4.8 3/6.3 4/4.8 4/6.3 5/A 5/B

### Example

**RTS-01 - 100 - 1R - 5 - 5/A**

RTS-01 series resistor with power 100W, resistance  $1\Omega \pm 5\%$  with screws and nut connections.
