PB-02 stand is a functional solution for laptops and tablets. Ergonomic shape and the ability to adjust the angle of inclination allow for the appropriate comfort of work, ensuring proper posture while reducing eye and neck fatigue. High-quality materials guarantee the durability of the stand. Its foldable, compact design allows for hassle-free portability. It also fits easily in a bag or a backpack. Rubber components prevent slipping of both the stand and the device and give high stability and safety while using.
