EN TECHNICAL SPECIFICATION

Bluetooth version:	5.1 + EDR + BR + BLE
Output power:	2 x 5 W
Bluetooth range:	10 m
Impedance:	4 Ω
Battery type:	Li-ion 3.7 V 3600 mAh
Operating voltage:	5 V
SNR:	≥ 90 dB
Maximum volume:	≥ 95 dB
Frequency response:	50 Hz – 18 kHz
Maximum SD card capacity:	32 GB
Radio frequency range:	Bluetooth 2402 MHz – 2480 MHz
Maximum radio-frequency power transmitted in which this radio device works:	4 dBm e.i.r.p.
TWS function:	Yes
Built-in microphone:	Yes
Operating time:	8.5 h
Charging time:	5 h
IPX waterproof rating:	IPX5
Dimensions:	90×90×188 mm
Weight:	700 g

The BS-031 wireless Bluetooth speaker is the perfect companion for both home parties and outdoors. The high standard of IPX5 water resistance protects it against splashes and flooding. Advanced Bluetooth technology in the 5.1 version guarantees a stable connection, smooth music playback and allows you to move the speaker up to 10 m from the sound source. The loudspeaker can also be connected using a cable with a 3.5 mm AUX connector, which is compatible with most analogue devices, or use the built-in memory card slot. In addition, the BS-031 model has practical functions: automatic battery saving and shutdown when not used for longer period of time and TWS technology that allows you to connect two speakers at the same time, so that you can enjoy even better stereo sound quality. The BS-031 loudspeaker is not only of an impressive sound and excellent quality, but also has a modern and stylish design that distinguishes it from other Bluetooth speakers available on the market.
