Keyboard layout: US (87 keys)
Interface: 2.4 GHz, Bluetooth, USB
Switches: OUTEMU Red
Switch lifespan: 50 000 000 keystrokes
Keyboard dimensions: 365×143×42 mm
Keyboard weight: 970 +/- 20 g
Software: Yes
Anti-ghosting: Full
Macro support: Yes
Compatibility: Windows 2000, XP, Vista, Win 7 / 8 / 10 / 11
Package content: Mechanical keyboard, braided USB-A – USB-C cable, 2.4 GHz receiver, user manual

SAVIO RAMPAGE is a wireless mechanical keyboard designed with gamers in mind, great for both home use and tournaments.

The keycaps are made with “double-injection” technology, which prevents the characters from rubbing off during use, and the life of the switches is up to 50,000,000 clicks.

The two-stage rubberised feet, which allow the keyboard to be positioned at three different support heights, will also assist in selecting the correct angle. The keyboard also has the option of routing the cable in three directions, thus adapting to each player's preference and comfort.
