■ TECHNICAL SPECIFICATION

Input voltage: 5V
 Rated current: 0.08 A
 Characteristics: Cardioid
 Frequency response: 60 Hz – 18 kHz
 Sensitivity: -40 ± 3dB (at 1 kHz)
 Max. SPL: 110 dB (at 1 kHz ≤ 1% THD)
 S/N ratio: ≥70 dB (A-weighted)
 Sampling frequency: 48 kHz
 Working current: 50 – 80 mA
 Dimensions: 135×Φ53 mm

The SONAR PRO gaming microphone is the ideal equipment for recording sound. It has a built-in pop filter to prevent sound distortion and an anti-shock cage protecting against recording accidental impacts on a desk or tablet. A convenient on/off button on the microphone gives you control of the unit without having to unplug it from your computer or console. In addition, the built-in soundcard and cardioid microphone characteristics make it ideal for streamers, online gamers, or podcasters. What's more, it is a plug & play device. It works as soon as you connect it into a computer or a laptop. In addition, the 1.8m USB cable ensures convenience and comfort.
