

Annular Bit, Tungsten Carbide Tipped, With SDS Plus Mandrel

For electrical and plumbing installations in concrete, brick walls and stone; cutting depth 46 mm

Properties

- annular bit tipped with specially soldered heat-resistant carbide plates for drilling holes in concrete, brick walls and stone (e.g. concrete slabs, kerbstones and similar types of hard stone)
- impact and shock resistant thanks to specially hardened SDS Plus shank, 110 mm
- available in various diameters, 46 mm cutting depth - ideal for house construction, extension and conversion
- includes mandrel and centring drill bit, Ø 8 mm, 70 mm long, pre-assembled for immediate use
- user-friendly pin solution for removing and changing the centring drill bit without tools
- reliable dust removal by means of 2 discharge holes, stops the annular bit becoming clogged
- TÜV-tested quality for peace of mind

Suitable for material

Suitable for material	Concrete, Washed-out concrete, Brick walls, Breeze block, Brick, Sand lime brick, Pumice stone, Aerated concrete, Breeze block, Floor screed, Clinker, Plaster
Conditionally suitable	Textile-reinforced concrete, Cobblestone, Flat brick, Marble, Granite, Slate

Annular Bit, Tungsten Carbide Tipped, With SDS Plus Mandrel

Technical data

Drill diameter	8 mm
Drill length	70 mm
Cutting edge version	Specially soldered heat-resistant carbide plates
Shaft length	110 mm
Shank version	SDS-plus shank
Threaded connector	M16
Direction of rotation	Clockwise rotation
Additional product specification	2 discharge holes impact and shock resistant Specially hardened, precise, wear-resistant drill shank

Scope of delivery

1 hollow annular bit
1 mandrel with centring drill bit

Accessories

5425000, 5428000, 5482000

Compatible with tool

Hammer Drill
