

Diamond Mounted Point Set, Cylindrical, 3 Pcs.

For grinding ceramics, glass, tiles, non-ferrous metals

Properties

- 3 cylindrical diamond mounted points, Ø 4 / 4.8 / 5.5 mm for delicate grinding of bores, radii, contours and edges
- diamond coated for high hardness, dimensional stability and service life when used on ceramics, glass, tiles and non-ferrous metals
- 3 mm shaft for easy mounting in drills, cordless screwdrivers, flexible shafts and miniature rotary tools

Technical data

Shaft diameter	3 mm
Direction of rotation	Clockwise rotation
Material/coating property	Diamond coated
Additional product specification	Ø 4 / 4.8 / 5.5 mm

Scope of delivery

- 1 diamond mounted point, Ø 4 mm, cylindrical
- 1 diamond mounted point, Ø 4.8 mm, cylindrical
- 1 diamond mounted point, Ø 5.5 mm, cylindrical

Diamond Mounted Point Set, Cylindrical, 3 Pcs.
