

Machine Table MASTER cut 2200

The compact machine table

Properties

- Work station function
- large worktop (dimensions: 780 x 540 mm) made of 22 mm thick MDF offers many clamping possibilities
- mobile: can be used anywhere and is space-saving to store, thanks to a very compact transport size of 800 x 580 x 200 mm and low weight of 17 kg
- removable legs with push-in mechanism and quick-lock cam lever, for transport or working on the ground
- hook-and-loop straps and retaining lugs for holding the detached legs
- comfortable working height of 860 mm
- 4 stoppers with 20 mm receptacles for limiting workpiece movement
- robust and stable: stable base frame made of painted steel and aluminium, with a load-bearing capacity of up to 120 kg, height-adjustable foot
- feet made of 2-component plastic for optimal protection against slipping
- hooks for tools and accessories
- 20 mm bore holes for applications that require clamping, e.g. with the wolfcraft work table clamp (art. no. 3036000)
- receptacle in the tabletop for the supplied hexagonal socket key
- table can be stored free-standing
- circular bench saw function
- fastening options for many customary circular handsaws make it possible to use the MASTER cut 2200 as circular bench saw
- parallel stop can be clamped on both sides; ideal for smaller workpieces that can be pushed across the table; parallel cuts up to a cutting width of 370 mm possible
- mitre cuts from 0 to +/- 60° with the angle stop
- special stop guide with spring-guided compensation and gliding elements
- with the removable riving knife available separately, the table is also compatible with machines that do not have a riving knife
- adjustable safety shield with connection for vacuum cleaners, for safe and dust-free work
- including fastening material for circular handsaws
- compatible tool size: circular handsaws with a cutting depth of max. 70 mm, a blade diameter of max. 200 mm, a base plate of max. 240 x 360 mm and a distance from the blade to the end of the motor housing of max. 225 mm
- cordless tools and plunge saws cannot be used
- jigsaw table function
- fastening options for many customary jigsaws make it possible to use the MASTER cut 2200 as a jigsaw table
- securing the jigsaw in the table makes cut guidance easy
- ideal for curved cuts on irregularly shaped workpieces
- unobstructed view of the marked line
- easy guidance of the workpiece by hand
- adjustable safety shield with connection for vacuum cleaners, for safe and dust-free work
- includes mounting material for jigsaws
- compatible tool size: jigsaws with a base plate of max. 90 x 200 mm
- cordless tools cannot be used

- milling table function
- fastening options for many customary routers make it possible to use the MASTER cut 2200 as milling table – when used in combination with the separately available parallel milling guide (art. no. 6901000)
- height-adjustable machine plate for smooth transitions
- warning: use of the router table is only allowed in combination with the parallel milling guide (art. no. 6901000).
- compatible tool size: routers with max. 230 V/max. 1,800 W, a base plate with diameter of max. 180 mm, a base plate height of max. 40 mm and a router bit diameter of max. 27 mm
- cordless tools and machines with electronic start-up protection are not permitted; refer to the operating instructions of the machine manufacturer for the relevant information

Instructions

Cordless power tools must not be installed in the MASTER cut, as they cannot be connected to the safety switch.

Technical data

Working height	860 mm
Product dimensions (W x D x H)	915 x 700 x 860 mm
Dimensions of folded product	800 x 580 x 200 mm
Load capacity	120 kg
Worktop	780 x 540 mm
Machine area of working tables	<p>for circular handsaws with riving knife, up to a maximum cutting depth of 70 mm, blade diameter of 200 mm, a base plate of max. 240 x 360 mm and a distance from the blade to the end of the motor housing of max. 225 mm; must only be used with appropriate knife insert.</p> <p>circular handsaws that do not have a riving knife can only be used in combination with riving knife art. no. 6916000 (up to max. 159 mm blade diameter) or riving knife art. no. 6917000 (from 160 up to max. 200 mm blade diameter).</p> <p>for routers with max. 230 V, max. 1,800 W, max. base plate diameter: 180 mm; max. base plate height: 40 mm; for max. router bit diameters of 27 mm; must only be used with parallel milling guide (art. no. 6901000).</p> <p>for jigsaws with a base plate of max. 90 x 200 mm</p> <p>cordless tools and machines with electronic start-up protection are not permitted; refer to the operating instructions of the machine manufacturer for the relevant information</p>
Table plate material	MDF, aluminium
Base frame material	Steel Aluminium
Additional product specification	<p>max. height of the workpiece for the circular saw bench function: 57 mm</p> <p>max. cutting width with parallel stop as table saw: 370 mm</p> <p>diameter of clamping holes 20 mm</p> <p>hole spacing on worktop 128 mm</p>
Product weight	17 kg

Machine Table MASTER cut 2200

Scope of delivery

1 Machine Table MASTER cut 2200
1 switch clamp
1 push stick
1 safety shield
1 EU safety switch
4 clamping jaws
1 machine plate with safety lock
2 knife inserts for circular handsaws, jigsaws and routers
1 insert ring, 15 mm, for routers
1 insert ring, 25 mm, for routers
1 angle stop
1 parallel stop
2 hook holders
Mounting material for power tools

Accessories

3036000, 6166000, 6172000, 6176000, 6891000, 6892000, 6899000, 6901000, 6916000, 6917000
