Product code: 54554

RJ45 connector commonly used to create connections in LANs, to connect Category Cat5e shielded Ethernet cables. The RJ45 connector has a distinctive metal housing that holds the wires in the correct order and provides mechanical protection. It has 8 pins and gold-plated contacts. The set contains 100 pieces.
HIGHER CONNECTION RELIABILITY

Modular RJ45 UTP plugs with gold-plated contacts

A high quality set of transparent RJ45 connectors with modular construction, compatible with FTP Cat5e patchcord cables**.** The connector has gold-plated metal contacts for improved conductivity and corrosion protection. Thanks to the foil shielding, the Cat5e FTP connectors with gold-plated contacts are more resistant to electromagnetic interference. Designed for use in areas of intensive disturbance.

COMPATIBLE WITH FTP CAT5E PATCHCORD CABLES

Suitable for applications where stable and reliable data connections are required

Modular RJ45 CAT5e connectors are Category 5e compliant, **meaning they are capable of handling data transmission up to 1 Gb/s**, which is important in modern networks. Ideal for connecting various devices such as computers, printers, routers, monitoring, gaming consoles, etc. This is the **perfect solution for professionals** who value performance, precision and durability of their installations. We recommend using a dedicated crimping tool. Remember to make the plugs and cables compatible in terms of category to ensure optimum network performance.
