

Micro USB input	DC 5V 2.1A
USB output	DC 5V 2.1A
USB output floating voltage	5.0-5.5V
Output load voltage ripple	<200 mV
USB output floating current	<10mA
Maximum output current	2.1A
Battery output cut-off voltage	$3.0 \pm 0.2V$
Auto recharge voltage	$4.10 \pm 0.05V$
Storage Temperature	$-40^{\circ}C \sim +70^{\circ}C$
Operation Temperature	$0^{\circ}C \sim 40^{\circ}C$

## NEW GENERATION CHARGER WITH POWER BANK FUNCTION

As a Versatility Power Bank & Charger 2-IN-1 product, LUSH BOX uses replaceable cells which is superior to the traditional ones, the capacity is under your control.

## CHARGING AND DISCHARGING AT THE SAME TIME

Your batteries and electronic equipment can be charged simultaneously if LUSH BOX is connected to external power source.

## QUICK CHARGE MODE 1\*2.1A / 2\*1.0A

Automatic selective charging mode,  
compatible with varieties of  
18650 3.6V/3.7V rechargeable  
lithium batteries.

## CHARGE & DISCHARGE BALANCING

## DISPLAY CHARGING STATUS ALTERNATELY

Advanced LED indicator & HD scratch resistant PC lens, dynamically shows power percent and battery status.

## ULTRALIGHT CHARGER WITH MAGNETIC COVER & LIFTING RIBBON

Lighter than iPhone 7 Plus and ease of use, curve appearance makes it feels good in hand.

## 5 PROTECTION LEVELS

- Reverse polarity protection.
- Automatic over-charging protection.
- Short-circuit protection.
- Intelligent over-discharging protection.
- Low voltage smart activation recovery function( $\leq 2.7V$ ).
