Profile heatsinks and liquid coolers>Standard extruded heatsinks

120.5 x 120 mm

Features

width:	120.5 mm
--------	----------

height:	120 mm
---------	--------

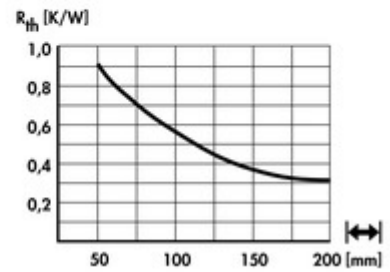

plate thickness:	13 mm
------------------	-------

length:	150 mm
---------	--------

thermal resistance:	0.9 - 0.3 K/W
---------------------	---------------

surface:	black anodised
----------	----------------

custom processing:	• individual CNC machining • desired length
--------------------	---
