Well organised, easy to remove

No twisting or slipping

Perfect for confined spaces

Simple loosening of tight screws

Kind to hands and muscles

Practical bit box incl. bit holder

In mobile use, it is not easy to carry all the necessary tools while keeping order. With the tool case basic, the mobile mechanic has a comprehensive set of equipment and does not lose track of things. For the ideal basic equipment, the handy tool case is equipped with a wide range of high-quality hand tools. From ergonomic screwdrivers and a selection of pliers to a ring ratchet open-ended spanner set, the user always has the right tool at hand for every work situation. In addition, the case offers ample space for further, individual additional equipment thanks to extra loops and storage room. The polypropylene case guarantees robustness and can be secured against theft thanks to the padlocks at the integrated eyelets (these are not included in the scope of delivery). The ergonomic two-component handle ensures a comfortable carrying experience. The tool case basic is also ideally suited for flights thanks to the air pressure compensation valve and can be clearly assigned to the owner with the existing, self-labeled name plate. Certified in accordance with protection class IP 67, the Wiha tool case is dust- and waterproof. With its 20 l capacity and a permissible load-bearing capacity of up to 14.2 kg, it is prepared for a wide range of operating conditions.
