Sizes above are manually measured. There might be slight tolerance.

High-Speed Data Transfer

Swiftly transfers files with our 4-Port USB 3.2 Gen 2.

10Gbps

Note: Both input and output devices must support 10Gbps transfer rates.
All data are from Vention Lab.

Maximize Productivity

4 ports run simultaneously and seamlessly handle work and play.

External Power Support

Supports external DC5V to help you handle work more efficiently when connecting multiple devices.

Value of Power Ports

The computer's USB-A port, which has a maximum power of 4.5W, cannot power high-power devices. And the 5V=2A power port can be adopted to ensure reliable operation.

Note: This port only powers for the hub, and does not support laptop power delivery or data transfer.

Stable Transmission without Lag

Powerful chip provides safe transmission.

OTG Supported

Tablets Connected Offer mobile officing

Cellphones Connected Act as hosts

Note: The mobile phone must support OTG and be connected to an OTG adapter.
