Stable Than Wireless Connection

With less signal transmission loss, you can get rid of the bondage of distance and improve your work efficiency.

Less Signal Loss

The tinned copper core and braided shielding decrease the transfer impedance and ensure the stutter-free signal transfer.

Exquisite Workmanship

2A Output

USB-C port provides strong load capacity

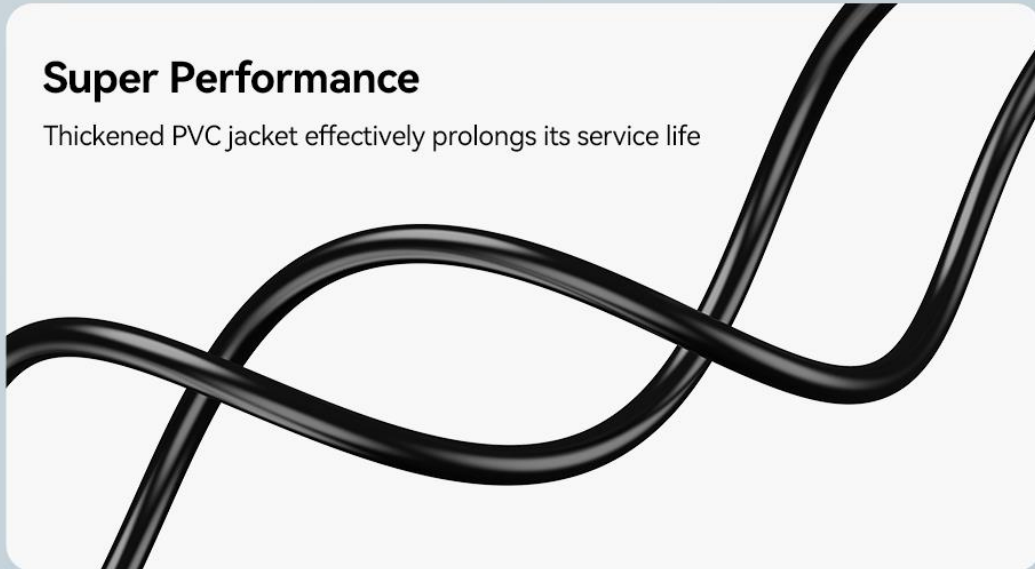

Corrosion Resistance

Nickel-plated interface makes it extremely durable

Super Performance

Thickened PVC jacket effectively prolongs its service life

Universal USB Compatibility

Suitable for most USB3.0 devices and backward compatible with USB2.0 devices.
