SIR-25

- infrared transmitter
- device remote control
- multifunctional keyboard
- operation range up to 5m
- ergonomic industrial housing
- replaces the SIR-15

The **SIR-25** infraRed remote control may be used as external programming keyboard for all SIMEX devices equipped with IR receivers and remote programming functions. Pressing of any local IR controller key, causes transmission of it's code to the device. The remote control features a five-button keyboard, including the **F/Σ/RESET** function button dedicated to the operation of the devices in the following group: counters, flow meters, and tachometers. Functions of particular keys depend on devices features. The SIR-25 remote control replaces the SIR-15 device.

TECHNICAL DATA

Power supply	3V DC - 1 lithium battery CR2032 type
Operation range	from 0,5 to 5 m (depends on programmed device features)
Operating temperature	0°C ÷ +50°C
Storage temperature	-10°C ÷ +70°C
Humidity	5 up to 90% no condensation
Dimensions (WxHxD)	43 x 72 x 15,5 mm
Weight	35 g max.

DIMENSIONS

infrared transmitter

programming keyboard

72,3 mm
