Waffle Trays

TECHNICAL DATASHEET

DESCRIPTION

Antistat waffle / IC trays are antistatic and available for use as either IC shipping and/or IC baking trays.

All our shipping trays are built in compliance with JEDEC thick and thin standard dimensions. Trays are constructed in modified polysulfone (PS) or equivalent for mid-temperature applications and polycarbonate (PC) for low temperature applications because of their high deflection temperature, superior strength, and dimensional stability.

All JEDEC waffle trays have the same “X” and “Y” dimensions and are easily stacked for storage and manufacturing.
