BEFORE USE

Inside Packaging:
Smart Star Projector X 1pcs
User Manual X 1pcs
1.8M Cable X 1pcs
Accessory X 1set

How to Begin?

- 1.Remove the protective film sticker from laser aperture.
- 2.Connect the power supply into an available standard electrical outlet.
- 3.Connect to WiFi.

Preparation for Use

1. Download MOES APP

MOES APP is upgraded as much more compatibility than Tuya Smart/Smart Life APP functional well for scene controlled by Siri, widget and scene recommendations as the fully new customized service.(Note:Tuya Smart/Smart Life APP still works,but MOES APP is highly recommended)

2.Register Or Login

Enter the Register/Login interface; tap "Register" to create an account by entering your phone number to get verification code and "Set password". Choose "Log in" if you already have a MOES account.

Please note: there are two mode configurations (Bluetooth Mode/Quick Mode) available for you to choose from to add the device to the app. Bluetooth Mode is recommended(Turn on your phone's GPS).

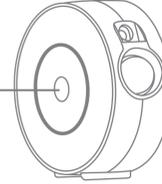

Bluetooth Mode Configuration

- 1.Make sure your phone is connected to 2.4G Wi-Fi and the Bluetooth is enabled.

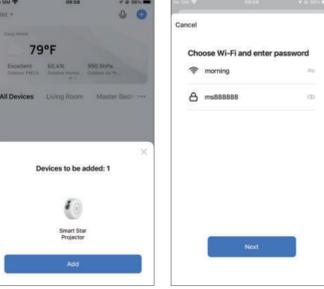

2.Connect the power supply into an available standard electrical outlet.

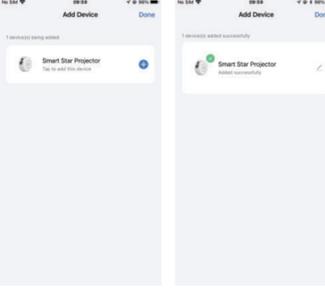

3.REST:press and hold the power button on the Smart star projector for 5 seconds until the LED light blinks rapidly.

4.Open Smart MOES App and Click "+",then the prompt page will automatically show on the screen.Click "Add". Enter Wi-Fi Password and click "Next",waiting for the connection completed.

5.Add the device successfully, you can edit the name of the device to enter the device page by click "Next".

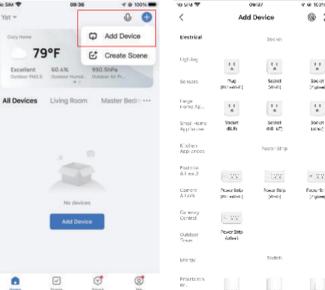

6.Click "Done" to enter the device page to enjoy your smart life with home automation.

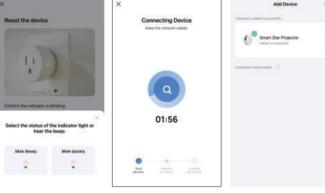

Quick Mode Configuration

- 1.Make sure quick mode configuration is initiated: The indicator light blinks blue rapidly (twice per second).If it blinks slow slowly (once every 3 seconds), press and hold the power button on the smart star projector for 5 seconds until the indicator light blinks rapidly.
- 2.Tap the icon "+" on the top right ,choose any device type and enter into "Add Manually".

3.Follow the in-app instructions to connect the smart star projector to your wifi network,and the connecting will take about 10-120 seconds to complete depending on your network condition.

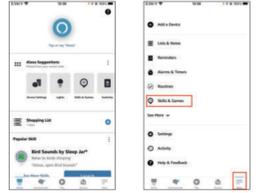

Please remember to choose the fast blinking

- 4.Once connected , the App will prompt you to connect. Press "Done".
- 5.Now you can control smart star projector through MOES APP
- 6.Once the configuration has been completed successfully, the indicator light will turn solid and the device will be added to the "Device List".

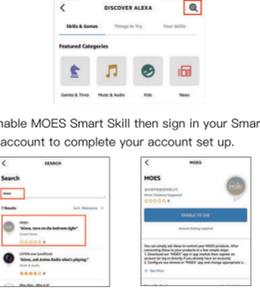

How to connect Smart Star Projector to Amazon Alexa.

1. Launch MOES App, sign into your account and make sure Smart star projector is on the device list
- 2.Minimize MOES App, then launch the Alexa App and sign in your Alexa account and make sure you have at least one Alexa smart speaker--controlled device installed like Echo dot, etc.
3. In the upper left corner of Home page, press the button to show APP Menu. Then select MOES in the menu.

4. Type in " MOES "in the search and press the search button next to it.

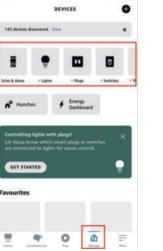

5. Enable MOES Smart Skill then sign in your Smart Life account to complete your account set up.

6. Once your account has been successfully linked, ask Alexa to discover devices. After a 20-second searching, Alexa will show all the available devices

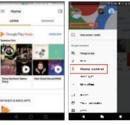

7. In the Smart Home page, you can group your devices in different categories. Your MOES APP has now been paired with Alexa. Now you can control your Smart star projector through Alexa.

How to connect Smart star projector to Google Home

1. Launch the Google Home App and make sure Google Home speaker is installed. If not, please follow Google Home speaker installation instruction to complete the installation.

2.Once Google Home is installed, in the upper left corner of App Home page, Pressing button to show App menu. Then press "Home Control" in the menu.

3. After successfully linking your account, in the Google Home App you can see all your smart devices from your MOES App account. You can assign rooms for each device.

4. Now you can use Google Home to control your smart device, you can say like.

Ok Google, turn on/off wall light
Ok Google, set bedroom light to red

FAQ

1.What should I do if I can't turn off or turn on the Smart Star Projector?
----Make sure your cellphone and the Smart Star Projector are connected to the same WiFi connection.

2.What should I do when the configuration fails?
----Make sure to connect your Smart Star Projector within a short distance of your internet router; Check whether the available internet network has a frequency of 2.4GHz; Check your internet connection is working properly.

3.How can I share devices with my family members?
----Open the MOES APP, select "profile">"Devices Sharing" > "Sent" select "Add Sharing", now you can share with your family members.

4.Can this APP be used on any type of mobile phone? Can I control the device from a distance?
----Yes, the APP can work with both android & IOS systems. Once connected to the Internet, there is no distance limitation.

5.Can I control the devices with a 2G/3G/4G connection?
----The Smart Star Projector devices must be registered first on a WiFi network, after you have successfully connected it, then the Smart Star Projector can be controlled by your Smart Phone with 2G/3G/4G networks.

6.Will it cause a fire or other safety hazards if kept on all night?
----No, it will be safe to use all night.

7.Can I adjust the brightness on this?
----Yes, you can adjust the brightness on the APP.

8.Is the indirect laser light damaging to eyesight?
----Yes, please do not look directly into the laser.

9.If projected on a ceiling, what is greatest width and height of the projected image?
----That depends on the height of the object you place it on.
