Desctription

The Akyga® AK-USB-52 USB cable is a versatile solution that easily meets the needs of anyone using a variety of mobile devices. Equipped with **three universal connectors – USB-C, Lightning and micro USB B** – it allows you to charge almost any modern device, whether it's an Android smartphone, iPhone or older tablet. No matter what connector your device has, the USB splitter provides fast and convenient charging, delivering power where it's needed.

Convenience and Functionality

At the input of the AK-USB-52 power cable, you'll find **two connectors – USB-A and USB-C**, which fit most power sources such as mains chargers, powerbanks and laptops. Wherever you are, you will always find a way to charge your devices quickly and conveniently. What's more, the USB cable has a length of **1.2 metres**, offering the flexibility to use your phone or other devices while charging, making it a practical solution both at home and on the go.

Safe and Stable Charging

The USB power cable has been designed with safe and stable charging in mind. It does not **support data transfer**, making its main purpose to deliver a **maximum current of 10 W** (5 V/2 A), ideal for charging most mobile devices. Whether you are charging your phone, tablet, wireless headphones or other accessories, you can rest assured that the universal USB cable will provide reliable power.

Aesthetics and Durability of the USB Cable

The white colour of the AK-USB-52 USB cable will blend in perfectly with any environment, whether you use it in the office, home or car. Its minimalist design means it will blend elegantly with other devices, and its robust construction guarantees long-lasting use.
