

USB Cable
Model: **AK-USB-56**

Product code	AK-USB-56
Product type	USB Cable
Maximum power	30 W
Cable length	1 m
The cable plug #1	USB Male connector type C
The cable plug #2	Lightning Male connector
Data transmission	Yes
Version	USB 2.0
Plated plugs	Yes - nickel plated
Cable material	Copper
Product color	Black
Color insets	Grey
Package	UniBag
Product size (L x W x H)	80 x 80 x 10 mm
Package size (L x W x H)	180 x 130 x 11 mm
Net weight	34 g
Gross weight	36 g
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5901720139702
Warranty	24 months

Description

The **Akyga® AK-USB-56 angled Lightning cable** with a length of 1m is the perfect solution for those who value convenience and reliability in everyday use. Thanks to its standard length, it works perfectly both at home and in the office, offering sufficient freedom of movement when charging mobile devices.

Universal and Functional Design

The charging cable for Apple devices has been designed with user comfort in mind. Equipped with a classic **angled Lightning connector** and a straightforward **USB-C plug**, this cable ensures wide compatibility with a variety of devices such as **iPhone** smartphones and **iPad** tablets. The angled connector is particularly useful for those worried about breaking the charging port — thanks to its design, it minimises pressure on the plug, which helps protect the device from mechanical damage. What's more, its length gives the user flexibility while avoiding bulky excess cable, making it ideal for use in any situation — whether at a desk, on the move or on the sofa.

Durable Construction and Stylish Design

The Lightning charging cable features a sturdy construction for long-lasting use. Thanks to its **robust braided** cable, it is resistant to abrasion and damage, making it a reliable companion for everyday tasks. Its modern, aesthetic finish not only fulfills its function perfectly but also looks great, complementing any electronic setup.

Fast Charging and Data Transmission

The angled Lightning cable supports fast charging with up to **30W**, making it ideal for powering modern mobile devices, including smartphones, tablets and other devices that require a quick charge. In addition to this, the cable also provides efficient **data transmission**, allowing you to conveniently transfer files between devices.
