

DIGITUS USB-A 3.2 Gen 1 to VGA Graphic Adapter

DA-70840
EAN 4016032390725

USB 3.0 to VGA Adapter, 1080p Input USB, Output VGA

The USB-A 3.2 Gen 1 to VGA adapter offers Full HD video resolution up to 1080p and supports dual display to extend or mirror your screen. Thanks to USB plug-and-play, no complex installation is required and monitors can be added or removed without rebooting the system. The integrated driver ensures quick setup. In addition, the adapter supports up to two simultaneously usable graphics adapters on one PC and automatically resumes work from sleep or standby mode. Ideal for simple and flexible expansion of display options

Extend your audio and video signal to an external monitor, TV or projector via your USB-A interface

Safety notes

- Overloading can lead to overheating and damage to the appliance or the connected peripherals.
- If necessary, use an external power supply to ensure stable performance.
- If devices such as external hard disks or printers that require a high power consumption are connected, the device should be used with an external power supply. Otherwise, the device could be overloaded or functional problems could occur.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.
- Clean the device with a dust-free cloth.
