H15R WORK Rechargeable LED Headlamp (WK2500)

H15R Work

- The Ledlenser H15R CORE rechargeable headlamp delivers a more natural light for colour identification thanks to its high CRI value and has been engineered to deliver extreme illumination for the harshest of workplace environments. Super tough, packed full of clever features and supplied with a host of useful accessories, this is the ideal light for professionals who demand quality
- 7-year with registration warranty for complete peace of mind
- Three brightness levels Boost 2500lm, Power 1000lm, Low Power 20lm
- Patented Advanced Focusing System clever engineering enables seamless beam focusing for flood (near) or spot (distance) illumination and any level in-between. On spot beam the H15R WORK can illuminate up to an impressive 250 meters on Boost mode
- Natural Light Technology delivers light with a high colour rendering index (CRI) score for those that demand precision in distinguishing colours as accurately as possible
- State-of-the-art multi-core precision optic delivers an outstanding quality of light
- Directable light ability to angle the light beam up or down (within 120°) for maximum illumination flexibility
- Dimming feature dim the light intensity to provide just the right level of illumination.
- Flicker-free light prevents a strobe effect, for example on fast moving machinery
- Seal-Tight Technology supreme level of ingress protection. 100% dust tight. Watertight against the effects of immersion in water between 15cm and 1m for up to 30 minutes. Rated IP67. Ideal for working in dusty or wet environments
- Cooling Technology helps the unit from overheating and thus prolongs the life of the unit by preventing damage to the light and its components
- Overhead headband for extra stability. Can be detached if not required
- Anti-microbial headstrap material helps inhibit the growth of harmful microorganism. Additionally, the adjustable headstrap can be detached for washing.
- Additional anti-slip silicone headband (supplied) provides a strong stable grip to helmets
- Protective rubber lens cover and protective screen helps protect the lens against impact, scratches and chemical damage. Removable so allows for easy cleaning. Also makes it easier to focus the light.
- Belt clip accessory and extension cable (both supplied) enables the headlamp to be affixed to a belt and used off the head. Extension cable enables battery to be positioned away from the head eg in a pocket or backpack.
- Low Battery warning allows user time to replace batteries before power runs out
- Battery status indicator indicates how much charge is still left in the battery
- Charging indicator indicates when battery is fully charged during recharging
- Transport Lock mode prevents accidental battery drain if switch is inadvertently depressed whilst in transit
- Magnetic Charge System water and dust tight, fuss-free magnetic contact charging. No need to remove battery out of its housing
- Fast charging via supplied magnetic contact charging cable just 5.5 hours to full charge
- Features a one-fits-all connector that allows attachment to various optional accessories
- Supplied with 2 x L-ion 21700 rechargeable battery, magnetic contact charging cable, helmet clips, additional anti-slip silicone headband and protective rubber lens cover

TECHNICAL DATA

POWER SUPPLY

Head diameter [mm]	51
Weight incl. batteries [g]	413
Weight without batteries [g]	263
Focus function	Yes
Head material	PC
Tube material	Aluminum alloy
Optic	Plastic lense (PMMA)
Headband material	Elastic fabric
Headband type	Side overhead headband
Head movement type	Stepless movement
Head movement angle [°]	120
Headband specifications	Detachable,
	Elastic,
	Washable

FURTHER SPECIFICATIONS	5	
IP class	IP67	
Drop test (drop height) [m]	3	

Drop test (drop height) [m]	3
Working temperature range [°C]	-20 to +40

IGHT FUNCTIONS

Boost, Power, Low Power

LIGHT SOURCE	
Amount LEDs	1
LED type	Xtreme LED
Colour	White
Colour temperature [K]	3700 to 4400
Colour rendering index (CRI)	90

	LIGHT VALUES

PACKAGING AND LOGISTICS

PACKAGING INFORMATION

Type of packaging	Box
Supplied with	1 set of rechargeable batteries,
	Belt clip,
	Extension cable,
	Helmet clips,
	Protective rubber lens cover
	Magnetic charging cable,
	Transparent anti-slip silicone headband
Item No.	502196
Customs tariff number	85131000
Colour	black

SINGLE PACKAGE	
Dimensions W x H x D [cm]	14.5 x 21 x 8.5
Gross weight [g]	590
GTIN-13	4058205021050

EXPORT CARTON	
Unit	12
Dimensions W x D x H [cm]	45.5 x 29 x 34
Gross weight [kg]	7.82

FOOTNOTES

The information pertaining to scope of delivery, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change scope of delivery, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and omissions excepted. 1) Measurement values according to ANSI FL1 in the respective setting. If no setting is explicitly indicated, the values refer to luminous flux (lumens/lm) and lighting range (meters/m) on the highest setting, and to battery duration (hours/hrs/h) on the lowest setting. A boost function (if available) can be used several times, but only for short periods of time. If the light is equipped with (a) colored LED(s), the measurement values are given for the white light or the white LED. If the light has different energy modes, the measurement is made based on the "energy saving mode".

2) Calculated capacity value in watt-hours (Wh). This applies to the delivery state of the battery/ies inside the respective item, or for lights with rechargeable battery/ies, to the rechargeable battery/ies inside the product when fully charged.

3) EP Patent 1880139, US Patent 7,461,960

5) Charging time varies by hardware used.
