

## First-Step

The first step to contamination control

- A hygienic pad of peel-off, disposable sheets, manufactured from an anti-microbial agent to protect against bacteria, mould and mildew.
- The 'tacky' sheets capture dirt and dust from footwear and wheeled equipment for contamination control.
- When the top sheet becomes soiled, simply peel it off to reveal a clean layer.
- Comes with self-adhesive backing to keep the mat in place.
- Ideal for hospitals, clean rooms, general industrial environments, and any other area where hygiene is an important factor.
- 4 Packs in a box with 30 peelable sheets per pack
