Qoltec fiber optic switch board on sliding ODF rail | 24 ports | SC / SX

Product code: 54480

Qoltec fiber optic switch board on sliding ODF rail designed to organize and terminate fiber optic cables in RACK 19" cabinets.

Innovative space organization

Qoltec fiber optic distribution box allows terminating and managing fiber optic lines in a RACK 19 "cabinet. It has a commutation field equipped with adapters, so you can connect and switch fiber optic lines to active devices using patchcords.

Functionality in your server room

Simplicity in design ensures convenience and comfort of use. The panel uses guides that allow the shelf to slide out, thanks to which the installation of cables and subsequent operation is trouble-free. The front panel is designed for the installation of 24 adapters simplex and the stability of the device is ensured by the attached brackets, which can be mounted in a RACK 19 "data communication cabinet.

Trust confirmed by warranty
Do you care about the high quality of the product you buy? Our proposals will meet your expectations. Each of the fiber optic distribution boxes we offer is covered by a 24-month warranty valid from the date of purchase.
