

## FP AP 20

- Cover

### CONNECTION DATA

### MECHANICAL PROPERTIES

Suitable for box size: 2

### AMBIENT CONDITIONS

|                                   |                                   |
|-----------------------------------|-----------------------------------|
| Application area:                 | Indoor installation               |
| Maximum ambient temperature 24 h: | 35 °C                             |
| Ambient temperature:              | -5 °C up to +40 °C                |
| Relative humidity:                | ≤ 50 % at 40 °C, ≤ 100 % at 25 °C |

### MATERIAL PROPERTIES

Material: Polycarbonate

### DIMENSIONS

Height: 310 mm

|             |          |
|-------------|----------|
| Width:      | 220 mm   |
| Net weight: | 0.228 kg |

## CERTIFICATES

|                              |             |
|------------------------------|-------------|
| conforming to the standards: | IEC 61439-3 |
|------------------------------|-------------|

## SALES DATA

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                          |
