2110	DATA SHEET (page 1 of 2).
	Designation : Stacking 4 mm Banana (male) Plug to Stacking 4 mm Banana (male) Plug Lead.
	Applications : to connect to 4 mm banana jacks, sockets, and binding posts. Very low voltage general purpose electric testing, controlling, and measuring.

Rear 4 mm banana female connection to stack the plugs (not shrouded plugs or plugs with retracting sleeves).

lengths 10 cm, 25 cm, 50 cm, 100 cm, 150 cm, and 200 cm (visible length of the wire, not the

overall length of the lead).

		DATA SHEET (page 2 of 2).	GLOSSARY :
2110	Designation : Stacking 4 mm Banana (mal	ACCESSIBLE. Able to be touched with a standard test finger or test pin. BASIC INSULATION. Insulation of HAZARDOUS LIVE parts which provides basic protection.	
			CAT II. Measurement or overvoltage category II. For measurement performed on / equipment connected to the building wiring.
			CAT III. Measurement or overvoltage category III. For measurement performed on / equipment connected to part of a building wiring installation
			CAT IV. Measurement or overvoltage category IV. For measurement performed on / equipment connected to the origin of the electrical supply to building.
			CLEARANCE. Shortest distance in air between two conductive parts.
			CREEPAGE DISTANCE. Shortest distance along the surface of a solid insulating material between two conductive parts.
			CTI. Comparative Tracking Index of the insulating material in accordance with IEC 60112.
			DOUBLE INSULATION. Insulation comprising both BASIC INSULATIO and SUPPLEMENTARY INSULATION.
			$\rm EN$ / IEC 60529. European / international standard regarding the degrees of protection provided by enclosures.

Dimensions in millimeters.

TRANSIENT OVERVOLTAGE. Short duration overvoltage of a few milliseconds or less, oscillatory or non-oscillatory, usually highly damped.

WORKING VOLTAGE. Highest r.m.s. value of the a.c. or d.c. voltage across any particular insulation which can occur when the equipment is supplied at rated voltage.
