

MULTIFUNCTIONAL TOUCH-SCREEN LCD DISPLAY

Continuous monitoring of battery performance
The product is equipped with a **multifunctional, easy-to-use LCD display with control panel** . Facilitates monitoring of the entire photovoltaic installation . **Allows you to configure the input voltage range** for home appliances and personal computers or change the priority settings of the AC/Solar charger. In addition, **the display records data and informs about failures, reacting accordingly if any of the parameters exceed the norm. If a fault occurs, the inverter shuts down.**
