【Product Description】

The CA316 is a compact Mini HDMI male to HDMI female adapter designed to connect Mini HDMI-enabled devices—such as cameras, tablets, and ultrabooks—to standard HDMI displays. Supporting up to 4K @ 60Hz resolution under HDMI 2.0 specifications, it ensures stable transmission of both high-definition video and digital audio. Featuring gold-plated connectors and a black PVC shell, this plug-and-play adapter offers excellent durability and universal compatibility with Windows, macOS, and Linux systems.

【Tech Specs】

Technical Specification	Description
Model	CA316
Color	Black
Product Type	Mini HDMI Male to HDMI Female Adapter
Connector A	Mini HDMI Type-A Male
Connector B	HDMI Type-A Female
HDMI Version	HDMI 2.0
Supported Resolution	Up to 3840×2160 @ 60Hz
Signal Support	Video + Audio (Digital)
Connector Material	Gold-plated
Jacket Material	PVC
Compatibility	Windows, Linux, macOS
Plug-and-Play	Yes

【Features】

- 1. 4K UHD Support:** Delivers high-resolution output up to 3840×2160 @ 60Hz.
- 2. Gold-Plated Connectors:** Provides better conductivity and corrosion resistance.
- 3. Compact Form Factor:** Lightweight and portable design ideal for mobile use.
- 4. Cross-Platform Support:** Compatible with Windows, Linux, and macOS systems.
- 5. Plug and Play:** No external software or drivers needed for operation.

【Application Environment】

- 1. Digital Imaging:** Ideal for connecting cameras or camcorders with Mini HDMI output to HDMI monitors or TVs.
- 2. Mobile Productivity:** Supports tablets or ultrabooks with Mini HDMI to projectors or larger displays.
- 3. Home Entertainment:** Useful for transferring HD video from compact devices to home theater systems.

- 4. Office and Education:** Perfect for presentations or AV setups using Mini HDMI-compatible devices.

【Important Notice】

- 1. HDMI Version Note:** Fully compliant with HDMI 2.0; supports 4K @ 60Hz under compatible devices.
- 2. No Signal Conversion:** Does not convert digital to analog signals.
- 3. Secure Fit:** Ensure both connectors are fully inserted to prevent signal dropouts.
- 4. Indoor Use Only:** Not designed for industrial or outdoor environments.
