【Product Description】

The CA416 is a compact USB-A male to Micro USB 5-pin male adapter designed for reliable data transfer and charging in USB 2.0 applications. With a maximum transfer rate of 480Mbps, this plug-and-play adapter is suitable for connecting standard USB-A ports to Micro USB devices such as smartphones, tablets, cameras, and portable peripherals. The adapter features a black PVC housing and nickel-plated connectors, offering both durability and stability for everyday use.

【Tech Specs】

Technical Specification	Description
Model	CA416
Color	Black
Product Type	USB-A Male to Micro USB 5P Male Adapter
Connector A	USB Type-A Male
Connector B	Micro USB 5-Pin Male
USB Version	USB2.0
Data Transfer Speed	Up to 480 Mbps
Connector Material	Nickel-plated
Jacket Material	PVC
Compatibility	Android Devices, Power Banks, Cameras, USB Peripherals
Plug-and-Play	Yes

【Features】

- USB 2.0 Compliance:** Supports high-speed data transmission up to 480Mbps.
 - Micro USB Interface:** Connects to a wide range of mobile and legacy Micro USB devices.
 - Durable Construction:** PVC housing with nickel-plated connectors for long-lasting use.
 - Easy to Use:** Plug-and-play design with no need for driver installation.
 - Compact Design:** Lightweight and portable, ideal for travel or everyday connectivity.

【Application Environment】

- Mobile Device Charging:** Ideal for power banks, smartphones, tablets, and MP3 players.
 - Peripheral Connectivity:** Connect USB-A ports to Micro USB-enabled devices like cameras or readers.
 - Office & Home Use:** Suitable for data sync and charging tasks in daily environments.
 - On-the-Go Usage:** Convenient for travel kits or emergency charging solutions.

【Important Notice】

1. **Power Limitation:** Ensure power source is sufficient when charging larger devices.
2. **Direction-Specific:** For use from USB-A host to Micro USB device only.
3. **Indoor Use Recommended:** Protect from moisture and physical stress for optimal longevity.
